Impact and Airborne Sound Control

GENIEMAT[®] RST

Underlayment for Reduced Sound Transmission

AUSTRALIA EDITION

GENIEMAT® RST

Sound Control Underlayment

FROM THE INVENTOR OF THE PATENTED TECHNOLOGY (US 6920723, US RE41945, CA 2398262) FOR RECYCLED RUBBER USED FOR IMPACT SOUND INSULATION, DIRECTLY BELOW FLOOR COVERINGS.

GenieMat RST is a flat, resilient, reduced sound transmission mat made from 94% recycled rubber content, used directly under hard surface floor finishes and over concrete and wood construction.

It is used when superior sound control is required in residential, education, hospitality, commercial and healthcare high-rises, or commercial buildings and protects ceramic tile, porcelain and stone from substrate cracks.

Engineered for direct adhered floor coverings such as tile, stone, wood, and vinyl floor coverings.

Tile – All products rated for minimum of commercial use.

Wood – **GenieMat FAS** adhesives offer superior bonding strength.

Vinyl – One-step method provides superior sound control for resilient floor coverings.

Features and Benefits:

- Mold, bacteria, fungi, and water resistant
- Exceeds pass criteria for point load test for crack isolation membrane (ANSI 118.12)
- Meets requirements for VOC emissions (IAQ test, ASTM D5116)
- Aids in Part 5.4 Building Code Approval
- Systems can be designed to meet Section 9 of the AAAC "Guidelines for Apartment and Townhouse Acoustic Rating"
- Floorscore® certified
- Complete floor covering system warranty available

PRODUCT SPECIFICATIONS

PRODUCT	ROLL SIZE	AVERAGE DYNAMIC STIFFNESS (BS EN 29052)	TYPE A HARDNESS (ISO 7619-1)	TCNA ROBINSON TEST WITH TILE (ASTM C627)
GenieMat RST02	1.22 m x 22.86 m	157 MN/m ³	40 durometer	Extra heavy commercial
GenieMat RST05	1.22 m x 9.14 m	105 MN/m ³	40 durometer	Moderate commercial
GenieMat RST10	1.22 m x 4.57 m	64 MN/m ³	40 durometer	Light commercial
GenieMat RST12	1.22 m x 4.57 m	60 MN/m ³	40 durometer	Light commercial
GenieMat RST15	1.22 m x 4.57 m	54 MN/m ³	40 durometer	Light commercial

RUBBER IS THE BEST VIBRATION ISOLATION MATERIAL

POSITIVE ADHESIVE LOCK
For very high bond strengths with adhered floor coverings.

APPROVED FOR PORCELAIN TILE, VINYL SHEET, LUXURY VINYL PLANK, CERAMIC TILE, AND ALL TYPES OF WOOD FLOOR

Fully Warranted Vinyl Plank System

Fully Warranted Ceramic Tile System
